

TEN REASONS TO BECOME A MEMBER OF THE CKD-MBD WORKING GROUP

- 1) To become visible for potential future pan-European or global international registries and clinical studies
- 2) To hear first about new clinical developments and publications
- 3) To hear first about CME and conferences developed by our working group
- 4) To have access to contact information of colleagues around the globe with shared clinical interests
- 5) To favor contacts, meetings, networking and exchange-visits among fellows involved in this area
- 6) To exchange expertise and clinical practice guidelines in areas of every-day interest which are not covered by randomized clinical trials
- 7) To share and discuss results of recent clinical trials
- 8) To share new CKD-MBD research or clinical proposals
- 9) To share novel basic research findings or technical lab troubleshooting on CKD-MBD related issues
- 10) To get access to the private information contained in the "CKD-MBD Restricted Area"
