Forefronts in ANCA Vasculitis

28 September 2013
University of Munich – Inner City Campus
Germany
Dear colleagues,

We like to welcome you to Munich`s second nephrology Continuing Medical Education (CME) event that we organize on behalf of the European Renal Association-European Dialysis and Transplant Association, ERA-EDTA. The topic of this year’s CME course will be ANCA-associated vasculitis. We are proud of bringing the most designated experts on the various aspects of the pathogenesis, pathology, and clinical management of ANCA vasculitis to Munich. Their lectures should be highly informative to junior or senior nephrologists and rheumatologists as well as to vasculitis experts from other specialties. The schedule will offer sufficient time to discuss, e.g. during the meet-the-professor sessions.

Funding by ERA-EDTA allows us to enjoy an industry-independent CME course at no registration costs for all participants. Furthermore, ERA-EDTA offers few travel grants for nephrologists <35 years of age. Applications can be sent to the registration address. We kindly ask you to make your own arrangements for travel, accommodation, and lunch. Limited pre-booked hotel space is available for registered participants and will be offered on a first come-first served basis.

The course will take place at the time and in walking distance of the world-famous “Oktoberfest”, which anyway brings together non-nephrologists from all over the world. This time we will join-in the nephrologists ...

We are looking forward to seeing you in Munich.

Sincerely,

Volker Vielhauer, Hans-Joachim Anders, Thomas Sitter, Michael Fischereder
Program

Welcome  8:00

Pathogenesis of ANCA-Associated Vasculitis
Moderator: Hans-Joachim Anders, Munich, Germany

1. Pathogenicity of ANCA: lessons from animal models
   Peter Heeringa, Groningen, The Netherlands  8:10

2. Molecular mimicry in ANCA vasculitis
   Renate Kain, Vienna, Austria  8:40

3. Genetic associations
   Lorraine Harper, Birmingham, UK  9:10

Coffee break  9:40

Pathology and Diagnosis of ANCA-Associated Vasculitis
Moderator: Thomas Sitter, Munich, Germany

4. Pathology of renal vasculitis: diagnosis and prognosis
   Kerstin Amann, Erlangen  10:10

5. Assessment of disease activity in ANCA vasculitis
   Mathias Grünke, Munich, Germany  10:40

6. Biomarkers of ANCA vasculitis
   Ulf Schönemarck, Munich, Germany  11:10

7. ANCA Testing: Current assays and perspectives
   Elena Csernoc, Bad Bramstedt, Germany  11:40

Lunch and Meet-the-professor session  12:10

Management of ANCA-Associated Vasculitis
Moderator: Michael Fischereder, Munich, Germany

8. KDIGO guidelines on pauci-immune necrotizing GN
   Volker Vielhauer, Munich, Germany  15:00

9. Rituximab for induction and maintenance therapy
   Rachel B. Jones, Cambridge, UK  15:30

Coffee break  16:00

10. Update on current ANCA vasculitis trials
    Kirsten de Groot, Offenbach, Germany  16:20

11. Long-term outcomes in ANCA vasculitis
    David Jayne, Cambridge, UK  17:00

Plenary discussion and Meet-the-professor session  17:40

Summary and end  18:20
Faculty

Kerstin Amann
Nephropathology, Department of Pathology
University of Erlangen-Nürnberg
Krankenhausstr. 8-10,
91054 Erlangen, Germany
