CKD from physiology to patients:
Everything is just metabolism
April 5-6 2013
LYON

with the support of AMGEN
FRIDAY APRIL 5 2013

15.00 Welcome, introduction
Gérard London, EURECA-m Chair,
Denis Fouque, President of the Organizing Committee

Session 1
CKD-MBD: Novelties and new challenges

15.25 In the post-Evolve era: why reduction in cardiovascular calcifications does not translate into better clinical outcomes?
Gérard London (Paris, France)

Session 2
Inflammation in CKD: new players in town

16.15 Deeping knowledge on inflammation and cardiovascular risk in chronic kidney disease: monocyte subpopulations matter
Danilo Fliser (Hamburg/Saar, Germany)

16.40 Inflammation and CKD: a nkB affair
Alberto Ortiz (Madrid, Spain)

Coffee Break

17.25 Uremic Toxins and CKD: a pro-inflammatory gut-kidney axis?
Ziad Massy (Amiens, France)

17.50 Oxidative stress in CKD as the final route to adverse clinical outcomes: novel clinical perspectives
Alberto Martinez-Casteilao (Barcelona, Spain)

SATURDAY APRIL 6 2013

Session 3
Clinical Hypertension and Sympathetic System Updates

8.45 The new NICE Guidelines recommendations for 24h ambulatory monitoring: for everyone in CKD patients?
Andrzej Wiecek (Katowice, Poland)

9.15 A new dimension in BP variability: the risk of visit to visit BP oscillations in essential hypertension and in CKD
Francesca Mallamaci (Reggio Calabria, Italy)

9.45 The sympathetic system and CKD progression
Carmine Zoccali (Reggio Calabria, Italy)

10.15 Renal Denervation in Hypertension and in CKD
Peter Blankestijn (Utrecht, The Netherlands)

Coffee Break

Session 4
Protein and energy balance and uremic toxicity

11.15 Energy balance, thyroid function and clinical outcomes in CKD
Bengt Lindholm (Stockholm, Sweden)

11.25 Protein restricted diets and uremic toxicity. Re-appraisal of an old theme
Denis Fouque (Lyon, France)
