# EURECA-m CME COURSE

*Cardiovascular Problems and Solutions in Chronic Kidney Disease*

September 7-8, 2012 / Ankara Hilton Hotel, Ankara - Turkey

**September 7<sup>th</sup> 2012, Friday**

**SCIENTIFIC PROGRAM**

15.00 Welcome, introduction (*the EURECA-m chair and the President of the Turkish Society of Nephrology*)

**15.00-16.15 SESSION 1: Methods for cardiovascular assessment in CKD**  
*Chairmen: Raymond Vanholder, Turgay Arınsoy*

15.00-15.25 Assessment of arterial functions: Is pulse wave velocity ready for prime time in CKD?  
*Gérard Michel London*

15.25-15.50 The study of endothelial function in CKD and ESRD, from flow-mediated vasodilation to biomarkers  
*Danilo Fliser*

15.50-16.15 The assessment of cardiomyopathy in ESRD  
*Carmine Zoccali*

**16.15-16.30 Coffee Break**

**16.30-18.05 SESSION 2: Sympathetic system alterations, Ca-regulatory hormones, anemia and cardiovascular disease in CKD**  
*Chairmen: Bengt Lindholm, Mehmet Şükrü Sever*

16.30-16.55 Sympathetic nervous and nitric oxide systems: Hand in hand in cardiovascular damage in CKD and ESRD  
*Francesca Mallamaci*

16.55-17.20 The emerging connection between calcium-regulatory hormones and inflammation  
*Alberto Ortiz*

17.20-17.45 FGF23, calcium regulatory hormones, endothelial dysfunction and CV risk in CKD  
*Mahmut İlker Yılmaz*

17.45-18.10 Is anemia still a cardiovascular risk factor in CKD in 2012?  
*Alberto Martinez-Castelao*

# EURECA-m CME COURSE

*Cardiovascular Problems and Solutions in Chronic Kidney Disease*

September 7-8, 2012 / Ankara Hilton Hotel, Ankara - Turkey

**September 8<sup>th</sup> 2012, Saturday**

**SCIENTIFIC PROGRAM**

## **08.30-09.45 SESSION 3: Inflammation and cardiovascular toxicity in CKD**

*Chairmens: Carmine Zoccali, Kenan Ateş*

- 08.30-08.55 A 2012 update on inflammatory cytokines and adipokines:  
Relevance for CKD  
*Andrzej Wiecek*
- 08.55-09.20 Beta-2 microglobulin and short Ig chains and organ damage in dialysis  
patients: An update  
*Bengt Lindholm*
- 09.20-09.45 Removal of suspected uremic toxins: A pathway for improving  
cardiovascular outcomes in dialysis patients  
*Raymond Vanholder*

09.45-10.00 *Coffee Break*

## **10.00-10.25 SESSION 4: Sodium, volume and blood pressure in CKD**

*Chairmens: Gérard Michel London, Aydın Türkmen*

- 10.00-10.25 An update on sodium in stage 5D CKD: Plasma sodium as a predictor  
of death and non-osmotic sodium storage  
*Mustafa Arıcı*

## **10.25- 11.45 SESSION 5: Cardiovascular involvement and cardiac ischemia in CKD**

*Chairmens: Andrzej Wiecek, Bülent Altun*

- 10.25-10.50 Atrial fibrillation as a cardiovascular risk factor in CKD  
*Adrian Covic*
- 10.50-11.15 Acute cardiac ischemia in CKD patients. Advancement in diagnosis  
and treatment  
*Gültekin Süleymanlar*
- 11.15-11.45 Discussion
- 11.45 Meeting End**

12.00-13.30 *Lunch*
