

		Morning sessions			
		June 6, 2012	June 7, 2012	June 8, 2012	June 9, 2012
		Arrival	Day 1	Day 2	Day 3
		Topic	ARF/AKI	GLOMERULOPATHIES	CKD
9:00-11:00	Morning session 1	Registration	Opening session Opening ceremony: Salutes form University of Medicine "Gr.T. Popa", ERA-EDTA and SRN (Prof. Dr. Adrian Covic, Prof. Dr. Goce Spasovski, Assoc. Prof. Adalbert Schiller) Lectures: Hepatorenal syndrome (Prof Kielstein)	Glomerulonephritis: an update. (Prof J. Floege)	Inflammation in end-stage renal disease (Prof Peter Stenvinkel)
			New approach to AKI- KDIGO Guideline (Prof Norbert Lameire)	IgA nephropaty: from pathogenesis to rationale therapy (Prof J. Floege)	Arterial physiology/pathophysiology and links to microvascular disease: the example of ESRD Mechanisms of arterial calcifications(Prof Gerard London)
			AKI/Renal replacement therapy (Prof Kielstein)	Indications for plasmapheresis in 2012 (Prof J. Levy)	Endothelial dysfunctions in CKD-ESRD (Prof Gerard London)
			Discussions	Discussions	Discussions
15 min			COFFEE BREAK	COFFEE BREAK	COFFEE BREAK
		Topic	SALT	GLOMERULOPATHIES	CKD
11:00-13:00	Morning session 2	Registration	Pro/Con Debate Session Salt reduction versus uremic toxins removal - mandatory in CKD patients? Prof. Dr. Raymond Vanholder and Prof. Dr. Adrian Covic	Balkan Nephropaty (Prof Adalbert Schiller)	Vitamin D and the cardiovascular system (Prof David Goldsmith)
			Sodium disarrays (Prof Norbert Lameire)	CAN – an update (Prof Goce Spasovski)	Anemia - novel therapies- (Prof Adrian Covic)
			The role of salt in kidney damage (Prof Eberhard Ritz)	"Meet the Expert Session" Hall no 1: Glomerular diseases track: Q&A session about how to treat difficult cases with nephrotic syndrome Hall no 2: Transplant track: Q&A session about how to treat transplant patients with failing renal function	Hypogonadism in male dialysis patients – should it be treated? (Prof Peter Stenvinkel)

1 h			LUNCH	LUNCH	LUNCH

10th Renal Failure Academy, An official ERA-EDTA postgraduate course - Iasi, Romania, 7-10 June 2012

		Afternoon sessions			
		June 6, 2012	June 7, 2012	June 8, 2012	June 9, 2012
		Topic	CKD/HD		Anemia/CKD-MBD
14:00-16:00	Afternoon session 1	Registration	Slowing down the progression of CKD (Prof Francesco Locatelli)	SOCIAL PROGRAM	PTH - a Particularly Tricky Hormone - why measure it at all in CKD patients? - (Prof David Goldsmith)
			Prenatal Programming (Prof Eberhard Ritz)		Optimal selection of patients with atherosclerotic RAS for revascularization (Prof Philip Kalra)
			New knowledge on removal of protein bound uremic toxins (Prof Raymond Vanholder)		Factors governing progression of CKD in a referred cohort (Prof Philip Kalra)
			Discussions		Discussions
15 min			COFFEE BREAK		COFFEE BREAK
16:00-18:00	Afternoon session 2	Wellcome drink	Lessons from the recent trials on Haemodialysis/Hemodiafiltration (Prof Francesco Locatelli)	SOCIAL PROGRAM	"Meet the Expert Session" Hall no 1: Anemia track: Q&A session about how to treat difficult cases with anemia. New targets. Hall no 2: CKD-MBD track: Q&A session about how to treat difficult patients with CKD-MBD. Hall no 3: Hemodialysis track: Q&A session about how to treat patients with catheter related sepsis.
			The past-present and future of haemodialysis (Prof J. Levy)
