FRIGIDAIRE

MEDICAL REFRIGERATION—
RELIABLE AND ECONOMICAL

Manufacturers of equipment for inducing hypothermia specify Frigidaire automatic refrigeration—an indication of its superb reliability.

IN HOSPITALS THROUGHOUT BRITAIN . . .

Frigidaire low temperature refrigerators are used for long term storage of bone and tissue, vaccines and sera.

'Chill' refrigerators preserve blood, antitoxins and milk formula.

Coldrooms and cabinets of all sizes safeguard the quality and freshness of foodstuffs.

(Model LCR. 145)
A 14½ cubic feet low temperature cabinet much used for bone, tissue and vaccine storage.

Frigidaire equipment is available for every refrigeration and air conditioning need. Write or telephone your Frigidaire Distributor for details.
