CONTENTS

Foreword vii
Preface ix

Part I – STATISTICAL REPORTS
Combined report on regular dialysis and transplantation in Europe, VIII, 1977
A J Wing, F P Brunner, H Brynger, C Chantler, R A Donckerwolcke, H J Gurland, R A Hathway, C Jacobs 3

Combined report on regular dialysis and transplantation of children in Europe, 1977
R A Donckerwolcke, C Chantler, F P Brunner, H Brynger, R A Hathway, C Jacobs, N H Selwood, A J Wing 77

Part II – DIALYSIS 1
Nutritional blood flow to the limbs after access procedures
M H R Sheriff, R B Naik, D J Warren 117

Haemodialysis without heparin
H F Woods, M J Weston, S Bunting 122

Is passive immunisation against hepatitis B a luxury, danger or necessity for dialysis patients and staff?
H C Burck, P Berg 130

Androgen trial in renal anaemia
R B Naik, A R Gibbons, O H B Gyde, B R Harris, B H B Robinson 136

Haemodialysis-induced leucopenia and activation of complement: effects of different membranes

Part III – DIALYSIS 2
Aluminium studies in dialysis encephalopathy
H L Elliott, A I Macdougall 157

Evaluation of plasma neurotoxin concentration in uraemic polyneuropathic patients
N K Man, G Cuelle, J Zingraff, T Drueke, P Jungers, A Sausse, J Boudet, J L Funck-Brentano 164

Treatment of psoriasis with dialysis

Sex hormone changes underlying menstrual disturbances on haemodialysis
Thyroid function in long term haemofiltration
H Schneider, E Streicher

Part IV – DIALYSIS 3

Comparison of intermittent with continuous peritoneal dialysis
M D Robson, D G Oreopoulos, S Clayton, S Izatt, A Rapoport, G A deVeber

Haemo- and peritoneal dialysis treatment of patients with diabetic nephropathy – a comparative study
E Quellhorst, B Schuenemann, G Mietzsch, J Jacob

Development of a sorbent peritoneal dialysate regeneration system – a progress report

Haemofiltration with sorbent regeneration of ultrafiltrate: first clinical experience in end stage renal disease
S Shaldon, M C Beau, G Claret, G Deschot, R Oules, P Ramperez, H Mion, C Mion

Comparison of haemodialysis (HD) and post dilution haemofiltration (HF) on an unselected dialysis population
C A Baldamus, W Schoeppe, K M Koch

Part V – HAEMOFILTRATION

Importance of the plasma refilling rate in the genesis of hypovolaemic hypotension during regular dialysis and controlled sequential ultrafiltration-haemodialysis
J J Rouby, J Rottembourg, J P Durande, J Y Basset, M Legrain

The cause of inadequate haemodynamic reactions during ultradiffusion
H Poggitsch, H Holzer, J Waller, H Pristautz, H Leopold, H Katschnigg

Ultrafiltration and high sodium concentration dialysis: pathophysiological correlation
F Locatelli, R Costanzo, S Di Filippo, L Pedrini, P Marai, C Pozzi, R Ponti, S Sforzini, B Redaelli

Ultrafiltration without simultaneous dialysis for removal of excess fluid
J Bergström

Part VI – TRANSPLANTATION I

The clinical and biological significance of the HLA system
Arne Sveigaard

A new predictive factor for the outcome of renal transplantation
A A Diamondopoulos, D N H Hamilton, J D Briggs

Complement components, degradation products and immune complexes after kidney transplantation
E Wegmuller, J Louis, J Hodler

The role of methylprednisolone in the modulation of cellular cytotoxicity and its relation to renal transplantation
P Keown, C Stiller, R Ulan, C Lockie, D McGirr
Antigen in the serum of HBsantigen-positive patients on maintenance dialysis and after transplantation
FW Albert, A Brisam, G Traut, G Thamer

Part VII – TRANSPLANTATION 2
One thousand prospective cadaveric renal transplant donors
A D Barnes

Long-term results in children following dialysis and renal transplantation
L Röhl, K Dreikorn, H W Schuler, H W Asbach, R Horsch, J Lobelenz, V Lenhard

Scanning electron microscopic study of hyperacute rejection in the inbred rat
Ch Leithner, H Piza-Katzer, P Krazik, M Winter, W R Mayr, H Stachelberger, H Sinzinger

Fine-needle aspiration cytology in the prediction and diagnosis of acute rejection episodes in man
P Hayry, Eeeva von Willebrand

Part VIII – TRANSPLANTATION 3
The significance of vascular anomalies in human renal transplantation
J R Sansom, C L Hall, A D Barnes, B H B Robinson, J D Blainey

Human polyoma virus (HPV) – a significant pathogen in renal transplantation
E F D Mackenzie, J M Poulding, P R Harrison, B Amer

Prevention of upper gastrointestinal complications after kidney transplantation
C C Doherty, Mary G McGeown

Long term observation of ocular findings after renal transplantation
H Kopsa, H Bettelheim, G Grabner, P Schmidt, J Zazgornik, P Balcke, P Pils

Rupture of the allografted kidney – is repair possible?
F Montes, P McMaster, R Y Calne, D B Evans

Cytogenetic analysis on children born of parents treated with immunosuppressive drugs
Mary G McGeown, N C Nevin

Part IX – NEPHROLOGY 1
Pathogenic factor in the serum of patients with acute renal failure?
H-U Gutsche

Partial protection against acute renal failure in rats with reduced renal mass
R Perez-Garcia, J M Lopez-Novoa, S Casado, L Hernandez

Effect of saralasin on plasma renin activity and arginine-vasopressin in hypertensive man
I P Arlart, J Rosenthal, H Wagner, H E Franz
Enhanced prostacyclin availability of blood vessels in uraemic humans and rats 418
Ch Leithner, M Winter, K Silberbauer, O Wagner, W Pinggera, H Sinzinger
Renal origin of a natriuretic material 424
J P Godon, P Cambier, A Nizet

Part X – NEPHROLOGY 2

A new aspect of uraemic haemolysis: increased susceptibility of erythrocytes to peroxidation 437
H-W Leber, Rita Spiegelhalter, G Schutterle
Sustained negative feedback between haematocrit and serum erythropoietin concentration in end-stage renal failure 442
P M Erbes, H W Radtke, W Schoeppe, K M Koch
Vascular factors in the pathogenesis of uraemic bleeding 449
G Remuzzi, T Bertani, M Livio, A E Cavenaghi, M Mysliewiec, D Marchesi, M C Donati, G de Gaetano, G Mecca
Elevations of gastrointestinal hormones in chronic renal failure 456
C C Doherty, K D Buchanan, J Ardill, Mary G McGeown
Urinary fibrin degradation products – a three year comparative study 466
E Schmitt, M Seyfarth, R Templin, P Schneider, H Klinkmann
HBsAg immune complex glomerulonephritis 473
A L'Abbate, F Bartolomeo, V Misefari, C Martorano, Q Maggiore

Part XI – NEPHROLOGY 3

Pathogenetic mechanisms in tubular renal disease 483
H W Intorp, H Quirll, H Losse
Studies on bicarbonate reabsorption in chronic renal failure 491
A Borghetti, A Guariglia, M Minari, L Borghi, A Curti, A Montanari, A Novarini
Cerebral and hepatic urea synthesis in patients with chronic renal insufficiency 500
A Tizianello, G de Ferrari, G Garibotto, G Gurreri, M Bruzzone
Familial Mediterranean fever and nephrotic syndrome in Turkey 506
E Erek, K Önen, A Müftüoğlu, UUlku, G Akokan

Part XII – RENAL OSTEODYSTROPHY

Cessation of bone loss in chronic renal failure by 1-alpha-hydroxy-vitamin D₃: a controlled trial 517
S Madsen, K Ølgaard, J Ladefoged
Biological activity of endogenous and exogenous calcitonin in patients with osteitis fibrosa and chronic renal failure 524
T Cundy, G Heynen, S Paton, J G G Ledingham, R G G Russell, D O Oliver, J A Kanis
Does long term haemofiltration provoke secondary hyperparathyroidism? 532
H Schneider, E Streicher, H Schmidt-Gayk, S Bosnajakovic
Total parathyroidectomy with autograft of parathyroid tissue in treatment of secondary hyperparathyroidism

U Frei, W Fassbinder, I Klempe, W Schoeppe, K M Koch

Current status of the management of renal osteodystrophy

A Fournier, J L Sebert, B Coevoet, J F De Fremont, J M Hardin, G Lambrey

Part XIII – POSTERS

Plasma sampling without blood cell loss in dialysis patients

J Bergstrom, H Asaba, B Lindholm

Arterio-venous fistula in small children

MF Gagnadoux, B Pascal, M Bronstein, P Bourquelot, P Degoulet, M Broyer

Percutaneous cannulation of subclavian vein for acute haemodialysis

A Schwarzbeck, W-D Brittinger, M Strauch

The polished carbon button – privileged access to the bloodstream (through attachment to an expanded PTFE conduit or arterialised fistula vessel)

T J Busemeier, S B Vogel, S H Dougherty, M M Eisenberg, G J Deutsch, D A Raible, C R Bentley, C M Kjellstrand, J S Najarian

Clinical implications of patho-morphological findings in vascular prostheses

K Möhring, H W Asbach, W Bersch, U Ikinger, H W Schuler

Aluminium: removal from water supplies

Computer assisted control of dialysis therapy

S Stiller, H Mann, W Gütlich

Haemoperfusion made safe with sorbent membranes

P S Malchesky, W Pietkiewicz, S Nakamoto, Y Nose

Adsorption of creatinine in haemoperfusion columns at pulsatile flow

E Piskin, A R Özdemir, A Gürçay

Long term follow up of chronic hepatitis B by serial liver biopsies in HBs positive haemodialysis patients. Role of hepatotoxic drugs

P Simon, D Herry, A Cougard, P Brissot, A Meyrier

Serum concentration of pituitary, thyroid and gonadal hormones in nondialysed and dialysed males with chronic renal failure

S Czekalski, B Małczewska, J Sowiński, S Sobieszczyk, W Kozak, M Eder, K Baczynk

Successful reduction of hypertriglyceridaemia (H.T.G.) by ambulatory dietary manipulation in young dialysed patients

C Ciancioni, F Dairou, S Delons, C Naret, J L de Gennes, P Jungers

Influence of haemoperfusion on plasma levels of hormones and β-methylidigoxin

F Kokot, J Pietrek, M Seredyński
Pharmacokinetics of antihypertensive drugs (atenolol, metoprolol, propranolol and clonidine) and their metabolites during intermittent haemodialysis in humans
W Niedermayer, K-U Seiler, O Wassermann

Sympathetic activity (plasma-dopamine-beta-hydroxylase) in haemofiltration and haemodialysis
U Spohr, H Schneider, E Streicher, R Schrack, E Ritz

Effect of furosemide, bumetanide and piretanide on the sensor of the tubuloglomerular feedback mechanism
R Brunkhorst, K Müller-Ott, H-U Gutsche, W Niedermayer

Computed tomography as an aid to diagnosis in renal disease and transplantation
J J K Best, R A Fawcett, W St C Forbes, I Isherwood, P Ackrill, F S Goldby, N P Mallick, R W G Johnson

Thyroid function in chronic renal failure, haemodialysis, and transplant patients
M Frutos, S Casado, R Peces, J A Sánchez Martin, L Hernando

The role of testicular adenylate cyclase in the hypogonadism of renal insufficiency
W Kreusser, U Spiegelberg, J Sis, D Wagner, E Ritz

Serum ferritin concentrations in children with chronic renal failure
D E Müller-Wiefel, E Wolf, D Schönberg, K Scharer

Abnormal conformation of albumin in uraemia
A Saito, Y Yamamoto, K Maeda, K Kobayashi, K Ohta

Glucose utilisation and hexose-monophosphate shunt in erythrocytes of patients with chronic renal failure
J Górski, A Manitius

The synthesis of middle molecular substances in rat tissues: in vitro study
R Dzúrik, P Černadček, V Spustová, A Válek

Influence of essential amino acid analogues on the urea cycle enzymes and protein synthesis in the liver of chronic uraemic rats
M Vlaho, H G Sieberth

The evolution of bone disease in patients on RDT for 10 years or more
B Lindergårđ, T Lindholm, S Sandström

Membership of the European Dialysis and Transplant Association
