CONTENTS

Foreword vii
Preface ix

Part I - STATISTICAL REPORTS

Combined report on regular dialysis and transplantation in Europe, IX, 1978
F P Brunner, H Brynger, C Chantler, R A Donckerwolcke, R A Hathway,
C Jacobs, N H Selwood, A J Wing

Combined report on regular dialysis and transplantation of children in
Europe, 1978
C Chantler, R A Donckerwolcke, F P Brunner, H Brynger, R A Hathway,
C Jacobs, N H Selwood, A J Wing

Part II - DIALYSIS 1

Effect of residual renal function on minimum dialysis requirements
S Ahmad, A L Babb, J Milutinovic, B H Scribner

RDT with acetate-free bicarbonate buffered dialysis fluid: long-term effects
on lipid pattern, acid-base balance and oxygen delivery
G Giorcelli, F Dalmasso, M Bruno, S Pellegrino, M Tondolo, M Sirkka, G Vacha
G Vacha

The influence of acetate versus bicarbonate on patient symptomatology
during dialysis
K Nagai, M Pagel, T Rattazzi, J Vizzo, B H Scribner

Intracellular free amino acids in patients treated with regular haemodialysis
(HD)
A Alvestrand, J Bergstrom, P Fürst

Reduction of unfavourable effects of heparin with use of gabexate mesilate
in dialysis
N Matsui, S Nakagawa, T Sasaoka, M Suenaga, N Yoshiyama, J Takeuchi

Non-A. non-B hepatitis: a new syndrome in uraemic patients
M M Avram, D A Feinfeld, A C Gan

Haemodialysis in schizophrenia: a double blind study — preliminary report
J-L Vanherweghem, P Linkowski, C Jadot, J Mendlewicz

Part III - DIALYSIS 2

Evaluation of the participation of parietal peritoneum in dialysis:
physiological, morphological and pharmacological data
J Knapowski, E Feder, M Simon, M Zabel

Central and peripheral haemodynamics in longterm peritoneal dialysis
patients
R Schurig, G Gahl, M Schartl, H Becker, M Kessel

xi
Continuous ambulatory peritoneal dialysis (CAPD) in the treatment of end-stage renal failure
N M Thomson, R G Walker, G Whiteside, D F Scott, R C Atkins

Nineteen months experience with continuous ambulatory peritoneal dialysis (CAPD)
D G Oreopoulos, S Clayton, N Dombros, G Zellerman, A Katirtzoglou

Advantages of continuous ambulatory peritoneal dialysis to the diabetic with renal failure
C T Flynn, J Hibbard, B Dohrman

Normalisation of growth hormone hypersecretion in uraemic diabetics and non-diabetics. Studies with artificial pancreas and artificial kidney
Aa Prange Hansen, H E Hansen, H Ørskov, R Nosadini, G Noy, K G M M Alberti

Part IV — DIALYSIS 3

Comparison of solute permeability and rejection characteristics of normal and high flux cellulose haemodialysis membranes
E Klein, F F Holland, K Eberle

Intestinal recycling and substitution of haemofiltrate in dogs
P Kramer, M Trautmann, E Heuer, L Drobnik, D Matthaei, H J Gröne, J Rieger, F Hölscher, C Langescheid, F Scheler

Removal of uraemic toxins by haemofiltration with different membranes. The benefit of regenerating haemofiltrate using a newly developed system
S Jörstad, L C Smeby, T-E Wideroe, K J Berg

Haemofiltration — critical evaluation of clinical benefits
H Schneider, E Streicher, U Hövelborn, H A G Müller, U Spohr, H Schmidt-Gayk

Prostacyclin eliminates the bioincompatibility of charcoal haemoperfusion
M J Weston, H F Woods, S Bunting, S Moncada, J R Vane

Influence of the plasticiser Di-2-ethylhexylphthalate on drug metabolising enzymes in the liver of uraemic rats
H W Leber, T Uviss, A Prenter

Part V — DIALYSIS 4

Vasopressin response in haemodialysis patients
E Nord, G M Danovitch

Angiocardioigraphic and haemodynamic studies in chronic haemodialysis patients with cardiomegaly
T Drücke, C Le Pailleur, M Sigal-Saglier, J Zingraff

Hormonal response to volume depletion in non-nephrectomised patients on regular haemodialysis
M Hammer, S Dawids, M Bredgaard Ørensen, O Christensen, K Ølgaard

The effect of haemodialysis and transplantation on autonomic neuropathy
J A Wilson, T M Yahya, G R Giles, A M Davison
Two year sequential haemodynamic data on polytetrafluoroethylene (PTFE) grafts used for haemodialysis

M Kaye, C Baird, B McCloskey, G Oscar, M D'Avirro

Thermography: an alternative to angiography for vascular access survey in haemodialysis

J P Masselot, J P Adhémard, J Laederich, D Kleinknecht

Peritoneal dialysis: physiology, current applications and future directions

K D Nolph

Membranes and haemodialysis

R L Stephen, A Zelman, B H Scribner

Part VI – TRANSPLANTATION 1

How can HLA matching improve kidney graft survival?

J J van Rood, G G Persijn, Q Lansbergen, B Cohen, A van Leeuwen, B A Bradley

Modification of the immune response

Part One. Cyclosporin A in clinical kidney grafting from cadaver donors

R Y Calne, D J G White, S Thiru, D B Evans, P McMaster, D C Dunn, G N Craddock, K Rolles

Part Two. Specific suppression of rejection in renal transplantation

P J Morris

The use of linear models to investigate the ‘centre effect’ on graft survival

R W Morris

A study of paired necro kidney grafts

Lars U Lamm, Scandiatransplant and EDTA Registration Committee

Orthopaedic complications of renal transplantation

J Nixon, S Hughes, J Castro

The evolution of hyperlipidaemia late after renal transplantation

M L Nicholas, G P J Alexandre, C van Ypersele de Strihou

Cadaveric kidney retransplantation, is it justified?

Is it really worth re-transplanting patients?

A Marni, P McMaster, D B Evans, R Y Calne

Part VII – TRANSPLANTATION 2

Cadaveric graft survival, clinical course, blood transfusions, HLA (A and B) match, and DR match in adult patients transplanted in one centre

J P van Hooff, A van Es, G G Persijn, J J E A van Hooff-Eykenboom, M W Kalff, J J van Rood, J de Graeff

Prolongation of renal allograft survival in DLA-tissue typed beagles after third-party leucocyte and erythrocyte transfusion

H Obertop, A B Bijnen, R H Schreve, D L Westbroek

Anti-HLA immunisation in 130 haemodialysed patients

M Olmer, J Gaultier, P Mercier, M Rampal
Influence of the Lewis blood group system on clinical kidney transplantation
Elisabeth Fischer, V Lenhard, W Römer, K Dreikorn, K Schärer, D Roelcke

Part VIII – TRANSPLANTATION 3

Use of thermography in kidney transplantation: two year follow up study in 75 cases
H Kopsa, W Czech, P Schmidt, J Zazgornik, P Pils, P Balcke

Cadaveric renal graft acceptance without azathioprine
P Schmidt, H Kopsa, P Balcke, J Zazgornik, P Pils

Low dose steroid from the day following renal transplantation

Factors responsible for the functional pattern of cadaveric kidneys stored up to 25 hours before transplantation
W Rowiński, L Gradowska, D Rowińska, M Lao, J Wałaszewski, J Szmidt, J Niemubowicz, T Orłowski

The effect of transplantation on dialysis dementia
A M Davison, G R Giles

Foetal liver transplant in Fabry’s disease
M C Malik, J L Touraine, H Perrot, J Traeger

Part IX – TRANSPLANTATION 4

Pretransplant cytotoxic antibodies do not segregate kidney transplant recipients into responder and non-responder groups
F Vincenti, W Amend, N Feduska, R Duca, O Salvatierra

Human gamma globulin enhances the survival of renal allografts
R R Riggio, J S Cheigh, M Suthanthiran, W T Stubenbord, M Fotino, R H Haschmeyer, K H Stenzel, A L Rubin

Endothelial antibodies in renal transplantation
L C Paul, L A van Es, F H J Claas, M W Kalff

Detection of memory cells by chemical modification of the lymphocyte cell surface
K H Stenzel, M Suthanthiran, A L Rubin, A Novogrodsky

Donor specific suppressor cells in association with rejection of a renal allograft
J B Dossetor, E M Liburd, T Kovithavongs, M R Higgins, V Pazderka

Pretransplant T cell levels and renal allograft survival
C H Uittenbogaart, B J Robinson, M H Malekzadeh, A J Pennisi, R B Ettinger, R N Fine

Part X – NEPHROLOGY 1

Prospects for prevention of chronic renal failure
Chronic pyelonephritis
D N S Kerr, T Chochilas, H U Rashid
Prospects for prevention of chronic renal failure (continued)
   Prevention of renal disease
   U Bengtsson
   466

Plasma inhibitors of the erythrocyte hexose monophosphate shunt in uraemia
   J Zingraff, P Kamoun, P Lebreton, T Drüke, N K Man, P Jungers
   475

Are erythropoietin levels in uraemic patients on haemodialysis dependent on the kidney disease and the duration of haemodialysis treatment?
   A J Walle, W Niedermayer
   481

Platelet hypersensitivity in the nephrotic syndrome
   G Remuzzi, D Marchesi, G Mecca, G de Gaetano, M Silver
   487

Recovery of kidney function following prolonged acute renal failure
   H Kopsa, P Schmidt, J Zazgornik, P Pils, P Balcke
   495

Treatment of renal amyloidosis with dimethylsulphoxide (DMSO)
   M H van Rijswijk, A J M Donker, L Ruinen, J Marrink
   500

Postprandial serum creatinine increase in normal subjects after eating cooked meat
   F K Jacobsen, C K Christensen, C E Mogensen, F Andreasen,
   N S C Heilskov
   506

Part XI — NEPHROLOGY 2

Evidence of high polymeric IgA levels in serum of patients with Berger's disease and its modification with phenytoin treatment
   M Lopes Trascasa, J Egido, J Sancho, L Hernando
   513

Plasma exchange in immune complex disease
   D A Houwert, L Kater, R J Henè, A Struyvenberg
   520

Plasma separation in Goodpasture's syndrome and multiple myeloma
   H G Sieberth, W Gloeckner, H Borberg, J Fohlmeister
   528

Pathogenetic role of mesangial immune deposits
   S R Batsford, H Takamiya, R Rohrbach, A Vogt
   535

Renal reflux, scarring, cystometrography and tissue types
   V Parsons, K W Munson, P Thompson, D Packham, L Kennedy
   542

HLA Bw35 antigen and mesangial IgA glomerulonephritis: a poor prognosis marker?
   F C Berthoux, C Genin, A Gagne, J C Le Petit, J C Sabatier
   551

Part XII — NEPHROLOGY 3

Urinary tract stone disease
   M Peacock, W G Robertson, P J Heyburn, A Rutherford
   556

Oxalic acid concentration in serum measured by isotopic clearance technique. Experience in hyper- and normo-oxaluric subjects
   566

Thiazide diuretics in renal hypercalciuria
   A Arolfi, G Graziani, G Mioni, M Cecchettin, D Brancaccio,
   C Galmozzi, M Surian, A Cantaluppi, C Ponticelli
   571
Part XIII – NEPHROLOGY 4

Production and action of a natriuretic hormone in isolated rat kidneys: necessity of prostaglandins for its release
P Cambier, J P Godon

Peptide hormones: renal handling and dialysis therapy
E Schlatter, H-J Schurek, K Schindhelm, R Zick, H Stolte

Evidence for aluminium accumulation in renal failure
S N E Marsden, I S Parkinson, M K Ward, H A Ellis, D N S Kerr

Low molecular weight proteins as urinary markers of aminoglycoside nephrotoxicity in man

Treatment of moderate to severe hypertensive patients with an orally active converting-enzyme inhibitor
E J L Prins, A J M Donker, S J Hoornije, F H H Leenen, G K van der Hem

Captopril and salt subtraction to treat ‘uncontrollable’ hypertension in haemodialysis patients
J P Wauters, B Waeb, H R Brunner, G A Turini, J P Guignard, H Gavras

Part XIV – NEPHROLOGY 5

Pathogenesis of hypophosphataemia in kidney necrograft recipients: a controlled trial
S Madsen, K Ølgaard, Bi Lund, Bj Lund, O H Sørensen

Handling of phosphate by the transplanted kidney
H Graf, J Kovarik, H K Stumvoll, A Wolf, W F Pinggera

The relationship between disturbed metabolism of vitamin D and bone disease in chronic renal failure
J A Kanis, R G G Russell, C M Taylor, T Cundy, A Andrade, G Heynen

Renal osteopenia – an assessment of long-term therapy with vitamin D analogues
G R D Catto, B J R Junior, R A Fraser, F W Smith, K V Ettinger, N Edward, M MacLeod

Renal bone disorders in children: therapy with vitamin D₃ or 1,25-dihydroxycholecalciferol
M Bulla, G Delling, G Offermann, R Ziegler, G Benz, H Lühmann, A Sanchez de Reutter, M Severin

Acute effects of propranolol and metoprolol on plasma concentrations of parathyroid hormone and calcitonin in uraemic patients
B Coevoet, C Desplan, J L Sebert, R Makdassi, J D Gherbrand, M Tolani, C Calmette, M S Moukhtar, A Fournier

Part XV – POSTERS

A new approach to the early detection of dialysis encephalopathy
P Ackrill, J Barron, S Whiteley, A C Horn, A J Ralston
Prolactin, zinc and sexual activity in dialysis patients
C Campieri, A Ben Dardeff, L C Borgnino, R Prandini, G Orsoni, S Stefoni

Aluminium, EEG and intellectual function in patients on regular dialysis treatment (RDT)
P Gilli, P De Bastiani, F Fagioli, G Rosati, A Bettì, A Farinelli

Study of trace elements in patients with chronic renal failure by neutron activation analysis
Y Tsukamoto, S Iwanami, F Marumo

Propranolol and uremic osteodystrophy
D Brancaccio, C Galmazzi, S Casati, D Rurale, Belloli, A Aroldi,
G Graziani, C Ponticelli

Use of radioisotope technique and photon absorptiometry to detect early avascular necrosis
S N Chatterjee, J M Vogel, N Telfer

Limitation by hyperphosphataemia of the 'prophylactic' use of vitamin D metabolites in the treatment of osteitis fibrosa in patients on chronic haemodialysis
J F de Fremont, J L Sebert, J Gueris, P Marie, B Coevoet, R Makdassi,
G Lambre, P Meunier, A Fournier

Post-transplant hyperparathyroidism: retained control by serum Ca++
D A McCarron, S Krutzik, J M Barry, R S Muther, W M Bennett

Vasodepressive effect of parathyroid hormone in post-transplant blood pressure regulation
D A McCarron, S Krutzik, J M Barry, R S Muther, S Plant, W M Bennett

Protective effects of diuretics in gentamicin nephrotoxicity
J Petersen, P H Whiting, J G Simpson

Haemodialysis in schizophrenia
G Splendiani, V Bruno, F De Meo, F Feriozzi, M Cammà, P Pomero

Haemodynamic dangers of high flow arterio-venous fistulas
L Burrows, K Kwun, H Schanzer, M Haimov

Pathophysiology of exaggerated natriuresis of hypertension
A Dal Canton, G Conte, G Fuiano, R Guasco, V E Andreucci

Arteriovenous fistula (AVF) blood flow in chronic haemodialysis patients (CHP): comparison of results obtained by the dye-dilution method (QAVF) and by variations in cardiac output during temporary occlusion of the AVF (ΔQ)
G Dongrati, P Rocha, J C Kahn, B Baron, P Marichez, J P Fendler

Cardiothoracic ratio as an index of body fluid balance in patients receiving RDT
A Poggi, Q Maggiore

Vascular stability during high flux haemofiltration (HF)
S Shaldon, G Deschodt, M C Beau, G Claret, H Mion, C Mion

Glucose tolerance in patients on haemodialysis, sequential ultrafiltration
and dialysis and haemofiltration
R Geronemus, B von Albertini, S Glabman, T Kahn, E Rayfield, J P Bosch
Prolactin in chronic renal failure, haemodialysis, and transplant patients
R Peces, S Casado, M Frutos, C Horcajada, J M López-Novoa, L Hernando

Prolactin, growth hormone, thyrotropin, insulin, C-peptide, glucose
tolerance and pituitary-gonadal axis in patients with compensated renal
failure
G Schernthaner, H K Stummvoll, H Ludwig, J Spona

Heymann nephritis of rats: is a vasopermeability mechanism really needed
for immune complex deposition?
F Alonso, J Egido, M Sanchez Crespo, L Hernando

Are circulating immune complexes and complement breakdown products
useful for the detection of disease activity in nephrology?
R Coppo, F Giachino, S Alloatti, F Quarello, G Segoloni, P Bossi,
A Vercellone, G Piccoli

Mitogen-induced lymphocyte transformation during haemodialysis
H Ludwig, H K Stummvoll, G Schernthaner

Lymphocyte markers and circulating immune complexes in primary
glomerulonephritis
P L Meroni, P Dall’Aglio, G Balestrieri, L Allegri, G F Cibodda,
G Colombo, A Tincani

Oxalate removal by dialysis and haemoperfusion
Q Maggiore, A Poggi, S Parlongo, T Cerrai

Plasma keto-analogues in uraemic patients
D Matthaei, P Schauder, P Kramer, K Grieben, F Scheler,
A Mench-Hoinowski, U Langenbeck

Urinary magnesium excretion in different types of hypercalciuria with
recurrent calcareous nephrolithiasis
L Minetti, G Colussi, A Antonacci, A Aroldi, G Graziani, M Surian

Effect of haemofiltration (HF) and haemodialysis (HD) on erythrocyte
organic phosphates in uraemic patients
D E Müller-Wiefel, B Klare, K Schärer

Serum trypsin concentration in renal disease
K W Rumpf, H Koop, F Stöckmann, P G Lankisch, F Scheler

Pyridoxine therapy of adult primary oxalosis
E J Will, O L M Bijvoet

Neuropathy and short time haemodialysis (STH)
U Graefe, D Steinhansen, K Langer, G Alterhoff, O Knoll, H Loew

Treatment of uraemic peripheral neuritis by direct haemoperfusion
with activated charcoal
O Otsubo, K Kuzuhara, Y Simada, Y Yamauchi, I Takahashi,
Y Yamada, K Otsubo, T Inou

A new sterile connecting system to avoid peritonitis in continuous
ambulatory peritoneal dialysis
H Becker, R Schurig, K Affeld, A Mohnhaupt, F Zartner, J Frank

Peritoneal dialysis in ketosis-susceptible diabetes mellitus
C Kablitz, R L Stephen, D P Duffy, W J Kolff

xviii
Value of biochemical measurements on the residual peritoneal fluid in patients on chronic intermittent peritoneal dialysis
G Lambrey, B Coevoet, J F de Fremont, J M Hardin, A Fournier

The migration of plasticisers from PVC haemodialysis tubes
J Gerstoft, E Christiansen, I L Nielsen, B Nielsen

Long term observation of dermatological findings in renal transplant recipients
H Kopsa, P Schmidt, J Zazgornik, P Pils, P Balcke, J Thurmer

Ultraviolet phototherapy in uraemic pruritus
N B Simpson, A M Davison

Cellular immunity in herpes simplex and cytomegalovirus infections in renal allograft recipients
E Spencer, A Møller-Larsen, H K Andersen, S Haahr

Selecting the programme for EDTA

Membership of the European Dialysis and Transplant Association
