CONTENTS

Foreword vii
Preface ix

Part I — STATISTICAL REPORTS

Combined report on regular dialysis and transplantation in Europe, X, 1979 2
H Brynger, F P Brunner, C Chantler, R A Donckerwolcke, C Jacobs, P Kramer, N H Selwood, A J Wing

Combined report on regular dialysis and transplantation of children in Europe, 1979 87
R A Donckerwolcke, C Chantler, M Broyer, F P Brunner, H Brynger, C Jacobs, P Kramer, N H Selwood, A J Wing

Part II — SYMPOSIUM ON ACUTE RENAL FAILURE

Pathophysiology and prevention of acute renal failure 119
K Thurau

Can acute renal failure in humans be prevented? 123
V E Andreucci, A Dal Canton

On the onset of acute tubular necrosis with a view towards prevention 132
A Chapman

Part III — GUEST LECTURE

On the pathogenesis of sexual dysfunction of the uraemic male 139
S G Massry, D A Goldstein, W R Procci, O A Kletzky

Part IV — HAEMODIALYSIS

Risk factors in chronic haemodialysis 149
P Degoulet, I Reach, F Aime, P Rioux, C Jacobs, M Legrain

Pathophysiology of dialysis related hypoxaemia 155
H Graf, H K Stummvoll, P Haber, J Kovarik

Is there a dissociation of erythropoietic proliferation and serum erythropoietin levels in renal failure patients on longterm haemodialysis treatment? 162
A J Walle, W Niedermayer

Visual function can be preserved in insulin-dependent diabetic patients treated by maintenance haemodialysis 167
Y El Shahat, J Rottembourg, P Bellio, M C Guimont, F Rousselie, C Jacobs
A non-A non-B hepatitis epidemic in an HB antigen-free haemodialysis unit. Demonstration of serological markers of non-A non-B virus
N Simon, J P Méry, C Trêpo, L Vivitski, A M Couroucê
Portable system for simultaneous measurements of blood electrolytes
J Harrow, J Janata, R L Stephen, W J Kolff

Part V – HAEMOFILTRATION

Cold carbon haemofiltration apparatus
C Giordano, R Esposito, P Bello, E Quarto, M Pluvio
Absence of transcellular fluid shift during haemofiltration
G Kimura, A Irie, K Kuroda, S Kojima, M Satani
Response of the vascular system to different modifications of haemofiltration and haemodialysis
E Quellhorst, B Schuenemann, U Hildebrand, Z Falda
Differing haemodynamic stability due to differing sympathetic response: comparison of ultrafiltration, haemodialysis and haemofiltration
C A Baldamus, W Ernst, W Fassbinder, K M Koch

Part VI – ALUMINIUM

Aluminium transfer in bicarbonate dialysis using a sorbent regenerative system: an in vitro study
B Branger, P Ramperez, N Marigliano, H Mion, S Shaldon, C Mion
Positive aluminium balance in patients on regular peritoneal treatment: an effect of low dialysate pH?
P Gilli, P De Bastiani, F Fagioli, U Buoncristiani, C Carobi, N Stabellini, R Squerzanti, G Rosati, A Farinelli
Reversible microcytic hypochromic anaemia in dialysis patients due to aluminium intoxication
A I K Short, R J Winney, J S Robson
Dialysis encephalopathy. Diagnostic and prognostic value of clinical and EEG signs, and aluminium levels in serum and cerebrospinal fluid
J P Adhemar, J Laederich, M C Jaudon, J P Masselot, C Buisson, A Galli, D Kleinknecht

Part VII – LIPID METABOLISM

The effect of chronic renal failure in rabbits on plasma lipids and the concentration of cholesterol, calcium and phosphate in the aortic wall
E Tvedegaard, O Kamstrup
HDL cholesterol and intravenous fat tolerance in dialysis patients
M K Chan, Z Varghese, J W Persaud, R A Baillod, J F Moorhead
The effect of heparin-free dialysis on abnormal lipid metabolism in patients on regular dialysis treatment
N Matsui, Y Nakamura, T Shinoda, H Iwamoto, N Yoshiyama, S Nakagawa, J Takeuchi, J Teraoka
Improve of post-heparin lipolytic activity (PHLA) after haemofiltration, in uraemic patients
S di Giulio, B Lacour, M Thevenin, C Basile, T Drüeke, N K Man

Part VIII – CONTINUOUS AMBULATORY PERITONEAL DIALYSIS

Continuous ambulatory peritoneal dialysis without wearing a bag: complete freedom of patient and significant reduction of peritonitis
G Bazzato, U Coli, S Landini, S Lucatello, A Fracasso, M Moracchiello

The adequacy of six litre daily continuous ambulatory peritoneal dialysis
A M W Forbes, V L Reed, H J Goldsmith

Metabolic effects of continuous ambulatory peritoneal dialysis
B Lindholm, A Alvestrand, P Fürst, S G Karlander, H E Norbeck, M Ahlberg, A Tranaeus, J Bergström

Fungal peritonitis in patients undergoing chronic intermittent or continuous ambulatory peritoneal dialysis
R Khanna, D G Oreopoulos, S Vas, W McCready, N Dombros

Part IX – POSTERS ON DIALYSIS

Arterio-venous fistulas constructed with formalin-fixed human umbilical grafts
H V Zühlke, A Anders, R Haring

Manufactured homologous vein graft for creation of arterio-venous fistula
Ph Bonnaud, D Messier, N-K Man

Impairment of the mental status of patients on regular dialysis treatment
P Gilli, P Bastiani, G Rosati, O Fiocchi, R Squerzanti, G Tataranni, A Farinelli

The influence of uraemic neuropathy on muscle: EMG, histoenzymatic and ultrastructural correlations
G M Savazzi, V Cambi, L Migone, A Marbini, E Govoni, M M Bragaglia, G Juvarra, P P Dall’Aglio

Use of prostacyclin in regular dialysis therapy
J H Turney, L C Williams, M R Fewell, V Parsons, M J Weston

Effects of prolactin suppression on hypogonadism in patients on maintenance haemodialysis
L Tharandt, N Graben, R Schäfer, G Plewa, K Joachim, R Siegel, G Benker, D Reinwein

Semicontinuous semiambulatory peritoneal dialysis
U Buoncristiani, M Cozzari, C Carobi, G Quintaliani, D Barbarossa, N De Paolo

Continuous ambulatory peritoneal dialysis and pulmonary function
H Thieler, E Riedel, W Pielesch, R Berzon, V v Paris

High precision automatic adjustment of ultrafiltration and reinjection flow rates during the haemofiltration procedure
T Haas, F Khazine, G Dongradi, O Simons, C Fraumont, J P Fendler
Urea and nitrogen metabolism in patients treated with haemofiltration
A Saito, H Asada, K Maeda, K Ohta

Cascade filtration for separating plasma proteins of different molecular weights
H G Sieberth, H Kierdorf, W M Glöckner

Membrane plasma separation: procedural recommendations
K Sprenger, H E Franz

Handy type haemofiltration-plasma exchange apparatus
O Otsubo, T Horiuchi, S Seo, T Dohi, F Fukui, T Inou

Serum levels of PTH, Mg, Ca, inorganic phosphate and alkaline phosphatases in uraemic patients on differentiated Mg dialysis
M Gonella, L Moriconi, G Betti, F Bonaguidi, G Buzzigoli, V Bartolini, G Mariani

Drug treatment of hypertriglyceridaemia in chronic uraemic patients: preliminary report on D,L-Carnitine and Thiadenol
G Giorcelli, G Vacha, G P Icardi

Part X – GUEST LECTURE

Immunodeficiency in chronic renal insufficiency
J Traeger, J L Touraine, J Navarro, J Freyria, P Contreras

Part XI – SYMPOSIUM ON CORTICOSTEROID DOSAGE IN RENAL TRANSPLANTATION

Corticosteroid therapy for renal transplantation
Mary G McGeown

Are there non-steroid-dependent rejection episodes?
J Crosnier, H Kreis, J M Descamps, R Mansouri

Steroids and rejection treatment in the Gothenburg transplant programme
H Brynger, L-E Gelin

Part XII – TRANSPLANTATION I

Renal allograft function and cytomegaly
Jirka J, M Horčičková, I Reneltová, P Rossmann, J Seeman, V Holá, V Kočandrle

Sonographic features of ATN and of acute rejection in renal allografts
C Cruz, H Hricak, W R Eyler, N W Levin, M Uniewski

Diagnostic evaluation of the in situ inflammatory response of renal allograft rejection
P Håry, Eeva von Willebrand, A Memlander, J Ahonen, B Eklund, B L Lindström

Enhanced prostacyclin synthesis in acute human kidney transplant rejection
C Leithner, H Sinzinger, K Silberbauer, A Wolf, H K Stummvoll, W Pinggera
A controlled trial evaluating intensive plasma exchange in renal transplant recipients
C J Cardella, D M C Sutton, A Katz, P R Uldall, M Harding, P N Corey, G T Cook, G A Deveber

Less aggressive rejection therapy and low-dose corticosteroids leading to satisfactory cadaveric kidney graft survival and low morbidity rate
J P van Hooff, A van Es, M I Koolen, M W Kalff, P H van den Broek, J de Graeff

Part XIII — TRANSPLANTATION 2

Machine preservation of 450 cadaver kidneys
F K Merkel, K B Espe, S C Jensik

Non-heartbeating donors, is it worthwhile?
J A van der Vliet, M J H Slooff, G Dootstra, R A F Krom, B G Rijkmans

Results of kidney transplantation in relation to HLA-A, B, DR matching and quality of donor organ
V Lenhard, K Dreikorn, L Röhl

Modification of kidney graft survival in dog and man by pre-operative transfusion to the donor
J Jeekel, C J Van der Linden, P A Vegt, W A Buurman, F Harder, G Persijn

Outcome of repeated renal regrafting
B Frisk, J Ahlmén, H Brynger, L Sandberg, L-E Gelin

Plasma 1,25(OH)₂D₃ and iPTH in transplanted adults with persisting hypophosphataemia
A Ulmann, N Chkoff, M Garabedian, B Lacour, J M Descamps, H Kreis, J Crosnier, J L Funck-Brentano

Part XIV — POSTERS ON TRANSPLANTATION

Early diagnosis of cytomegalovirus infection in renal transplantation
C Feletti, M Musiani, V Bonomini

Prognostic significance of B and T cell antibodies in kidney transplantation
V Lenhard, W Rettwitz, K Dreikorn, L Röhl

T-active rosette forming cells as a better index of kidney transplantation recipients’ immune reactivity
G Civati, B Brando, M L Broggi, P Cosci, L Minetti

Serological study of patients receiving prospective blood transfusions before kidney transplantation
T Nebout, C Bracq, P Mannioni, G Fruchaud, C Abbou

Reversal of rejection and subsidence of immunoglobulinuria by intensive plasmapheresis
L Burrows, H Schanzer, M Haimov, K Jhaveri, V Deutsch, E Ambinder, K Kwun

Alternate day steroids and blood pressure control after renal transplantation
M J McHugh, H Tanboga, R Wilkinson
Incidence of cancer in renal transplant recipients
A G R Sheil, J May, J F Mahoney, J S Horvath, J R Johnson, D J Tiller, J H Stewart

Risks and benefits of bilateral nephrectomy: an analysis of 134 cases
L C Williams, J H Turney, M Bewick, C J Rudge, S A Snowden, M Weston, V Parsons

The timing of immunosuppressive therapy and suppression of the immune response
M S Knapp, N P Byrom, R Pownall

Part XV – SYMPOSIUM ON PSYCHOLOGICAL AND SOCIO-ECONOMIC ASPECTS OF DIALYSIS AND TRANSPLANTATION

Introductory remarks
H E de Wardener

Medical staffs’ attitudes and patients’ rehabilitation
A Kaplan De-Nour

The ‘uncooperative’ patient with ESRD, causes and treatment
N B Levy

Part XVI – RENAL OSTEODYSTROPHY

The evolution of renal osteodystrophy in patients undergoing continuous ambulatory peritoneal dialysis (CAPD)
V Calderaro, D G Oreopoulos, H E Meema, R Ogilvie, H Husdan, R Khanna, C Quinton, T Murray, D Carmichael

Comparison of 1,25(OH)₂D₃ and 24,25(OH)₂D₃ in the long-term treatment of renal osteodystrophy
N Muirhead, G R D Catto, N Edward, R A Fraser, J L H O’Riordan, S E Papapoulos, S Adam

24,25 dihydroxycalciferol: assay in non-anephric patients on chronic haemodialysis and assessment of its possible pathophysiological role in renal osteodystrophy
G Lambrey, T M Nguyen, A Fournier, J L Sebert, J Kassouf, J F de Fremont, P Marie, P Meunier, C Caillens, J Gueris, M Garabedian, S Balsan

Direct feed-back regulation of PTH-secretion by 1,25-dihydroxyvitamin D₃ in renal failure: a controlled trial
S Madsen, K Ølggaard, J Ladefoged

1,25 dihydroxycholecalciferol treatment of uraemic rats after high magnesium feeding
U Binswanger, H Schiffi, M Huggler, C Becker

Deterioration of renal function in non-dialytic uraemics caused by 1α(OH)D₃ which was not attributable to hypercalcaemia
N Yoshiyama, T Akiba, N Matsui, H lwamoto, M Ogura, S Nakagawa, J Takeuchi
Part XVII – GUEST LECTURE

Metabolic alterations caused by uraemia
R Dzúrik

Part XVIII – NEPHROLOGY 1

Metabolic effects of long-term diversion of renal venous blood into the portal system
F Kokot, T Paliwoda, Z Bułanowski, A Bochenek, Z Herman, M Wieczorek, J Dobosz

Haemolytic uraemic syndrome: report of a case and new pathogenetic concepts
G Ramuzzi, R Misiani, D Marchesi, M Livio, G de Gaetano, M B Donati, G Mecca

The effect of parathyroid hormone (PTH) and 1,25 dihydroxy vitamin D$_3$ (1,25(OH)$_2$D$_3$) on RNA and HEME synthesis by erythroid precursors
J Levi, D Ževin, H Bessler, M Djaldetti

Part XIX – NEPHROLOGY 2

Are results of immunosuppressive therapy influenced by immunogenetic markers?
M Šašinka, Š Nyulassy, R Dzúrik, M Buc, I Slugeň, M Pavlovič, J Štefanovic, R Menkyna

‘In situ’ immune complex nephritis and basic proteins
A Vogt, H U Schmidt, H Takamiya, S Batsford

Platelet-aggregating immune complexes in idiopathic glomerulonephritis and SLE
N Kasai, A Parbtani, J S Cameron, V Yewdall, P Shepherd, P Verroust

Circulating DNA-anti-DNA complexes in lupus nephritis and idiopathic nephritis
D Gwyn Williams, D Adu

BK papovavirus immune complexes in glomerulonephritis
U Donini, L Rossi, F Palanchetti, P Zucchelli, F Pli, G Altavilla, A Corallini, G Barbanti-Brodano

Human glomerulonephritis and persistent non-polio enterovirus infection
F C Berthoux, O G Gaudin, O Sterczinski, R Granouillet, C Genin, B Pozetto, B Laurent, J C Sabatier, R Gonthier

Effect of plasmapheresis (PP), corticosteroids and cyclophosphamide in essential mixed polyclonal cryoglobulinaemia associated with glomerulonephritis
D A Houwert, R J Hené, A Struyvenberg, L Kater
Increase of IgG-bearing peripheral blood lymphocytes and hypo IgG-globulinaemia in minimal change glomerulonephritis and focal glomerulosclerosis
P Dall'Aglio, P L Meroni, L Allegri, E Ciccone, C Chizzolini, G De Bartolo, C Messina, G Savazzi

A possible common pathogenesis of the mesangial IgA glomerulonephritis in patients with Berger's disease and Schönlein-Henoch syndrome
J Ëgido, J Sancho, F Mampaso, M Lopez Trascasa, M Sanchez Crespo, R Blasco, L Hernando

A new test for IgA containing immune complexes or aggregated IgA: its application to Berger and Schönlein-Henoch nephritis
R Coppo, M De Marchi, A Aprato, D Roccatello, M Messina, G Segoloni, G Camussi, S Alloatti, F Giacchino, A O Carbonara, A Vercellone, G Piccoli

HLA antigens in children with idiopathic nephrotic syndrome
V Lenhard, J Dippell, D E Müller-Wiefel, D Schröder, S Seidl, K Schärer

Mycotic urinary tract infection in pyelonephritic patients
G Kraatz, H Bernhardt, W Dutz, F Neubauer

Prevention of ischaemic acidosis: a new approach to acute renal failure
L Chan, K R Thulborn, J C Waterton, J G G Ledingham, B D Ross, G K Radda

Alleviation of ischaemic acute renal failure by beta blockers: specific tubular receptor blockade or membrane stabilising effect?
I Iaina, I Serban, S Gavendo, S Kapuler, H E Eliahou

Steroid pulses and plasmapheresis in the treatment of acute renal failure in multiple myeloma
F Locatelli, C Pozzi, L Pedrini, P Marai, S Di Filippo, R Ponti, R Costanzo

Ammonia and amino acid metabolism by the portal-vein-drained viscera in chronic renal insufficiency
A Tizianello, G De Ferrari, G Garibotto, G M Chiggeri, C Robaudo, G Motta, M Nahum

Alpha-ketoglutarate versus ketoacids as dietetic substitutes in chronic renal insufficiency
E Meisinger, I Schubert, E Zimmermann, M Strauch

Haemodynamic and metabolic responses to physical training in chronic renal failure
E Röseler, R Aurisch, K Precht, D Strangfeld, F Priem, H Siewert, K Lindenauf

Echocardiographic detection of cardiac involvement in uraemia
B R Mehta, M A Ireland, M F Shiu, B H B Robinson

A neurophysiological bedside technique for monitoring uraemic brain dysfunction
O Knoll, U Harbort, K Schulte, F Zimple, H Losse

Long term effect of captopril in hypertension with chronic renal failure
J-P Gassia, D Durand, H Ton That, F Degroc, J-M Suc
Damage to testicular function in chronic renal failure of children
K Schärer, M Broyer, P Vecsei, M Roger, E Arnold-Schwender, J Usberti
725

Oxalosis in chronic renal failure
CT op de Hoek, Ph PN M Diderich, S Gratama, EJ M Weijst-v Hofwegen
730

Effect of 1α-hydroxylated vitamin D on steroid induced calcium malabsorption
H Graf, HK Stummvoll, JK Kovarik, H Bergmann, A Wolf
736

Part XXI

Selection of papers for the 17th EDTA congress
CMion
743

Membership of the European Dialysis and Transplant Association
747

Subject Index
749

Author Index
759
