Subject Index

Compiled by R. Walter Elliott

A

acute renal failure
  cellular immunity in, 165
aldosterone
  plasma levels before and after bilateral nephrectomy, 136
arsenic
  concentration in peripheral nerves in uraemia, 198
arteriography in renal transplants
  235
arterio-veno-arterial by-pass
  348
arterio-venous fistulae
  cannulation of, 82
  comparison with shunts, 65
  in home dialysis, 94
  method of formation, 53

B

blood transfusion and renal transplantation
  226
bone disease
  parathyroidectomy, 279
butobarbitone
  dialysis using charcoal regeneration, 333

calcium
  balance on R.D.T., 269
  effect of parathormone infusion, 282
cannula
  comparison of clearances with fistulae, 71
  complications, 68
  survival, 66, 147
cannulation
  of subclavian vein, 59
  complications, 61

cellular immunity in renal failure
  165
children and R.D.T.
  145, 149
chronic renal failure
  parathormone infusion, 282
creatinine
  estimation from dialysate, 19
cross circulation for hepatic failure
  325

D

dialysance
  comparison of Kiil and Ab Gambro, 5
  comparison
    Ultra flo 145, 111
    Ultra flo 100, 111
    LTX 299, 111
EX-01, 111
  lavender dialyzer, 40
dialyzers
  see haemodialyzers
dialysis
  disequilibrium in children, 155
  duration, 28
  psychosocial evaluation and management, 140
F
fibrinogen formation and fibrinolysis
  in chronic renal failure, 176
fistulae
  see arterio-venous fistulae
fructose in peritoneal dialysis
  300

G
growth hormone secretion on R.D.T.
  157
growth on R.D.T.
  146, 154

H

haemodialyzers
  Ab Gambro, 3, 363
  Ab Gambro, paediatric, 4
  application of theoretical design, 43
  charcoal regeneration of dialysate, 333
  coil re-use technique, 30
  comparison
    in home dialysis
      Ultra flo 145, 109
      Ultra flo 100, 109
      LTX 299, 109
      EX-01, 109
    Kiil, 116
      twin coil, 116
      washing machine, 116
  design editorial, 319
  in use in Europe, 106
  in vitro testing, calcimic coil, 354
  in vivo comparison of Kiil and Alwall-Gambro, 363
  lavender, 35
  measuring clearances from dialysate, 18
  negative pressure single pass twin coil, 351
  Rhône-Poulenc disposable parallel flow, 10
  ultra filtration problems with Kiil, 345
  Ultra flo 100, 26

haemodialysis
  disequilibrium in children, 155
  effect on hepatic clearances, 307
  effect on leucocyte dynamics, 312
  effect on plasma renin, 136
hepatic failure
  treatment by cross circulation, 325

377
home dialysis
automatic peritoneal, 370
comparison of dialyzers, 110, 116
in children, 145
in Europe, 101
Kil, 26
transfusion requirements, 109
Ultraflo 100, 26
using arterio-venous fistulae, 94
hypersensitivity
delayed in chronic renal failure, 165
hypertension
effect of nephrectomy, 152
plasma renin and the effect of haemodialysis, 131

I
iron kinetics in R.D.T.
121

K
kidney perfusion machine
337

L
lactate levels in peritoneal dialysis
293
leucocyte dynamics in haemodialysis
312
lymphocytes
circulation in man, 257

M
magnesium balance on R.D.T.
269
manganese
collection of uraemic peripheral nerves, 198
myopathy in chronic renal failure
204

N
nephrectomy
effect on aldosterone and renin levels, 136
effect on hypertension, 152
in renal transplantation, 224
nerve fibre degeneration in uraemia
191
nystagmusal rhythm changes in renal transplants
252

O
osteodystrophy and renal substitution
276

P
paediatric
Ab Gambro dialyzer, 4
parathormone
effect of infusion, 282

parathyroidectomy in patients on R.D.T.
calcium balance, 273
perfusion of isolated kidneys
337
peritoneal dialysis
automatic hospital or home system, 370
blood sugar, 290
hyperglycaemia, 300
hyperosmolality, 300
lactate levels, 293
permanent catheter, 370
semi automatic system, 347
sodium changes, 289
using fructose, 300
phosphate
balance on R.D.T., 269
effect of parathormone infusion, 282
polyneuropathy in uraemia
191
psychosocial evaluation and management in haemodialysis and transplantation
140

R
regular dialysis treatment
calcium, magnesium and phosphate balance, 269
design of six-bed centre, 328
fibrinogen formation and fibrinolysis, 176
growth hormone secretion, 157
growth and sex hormone status, 146
in children, 145, 149
in Europe, Report V, 99
iron kinetics, 121
myopathy, 204
parathormone infusion, 282
record system for patients, 357
rehabilitation, 105, 119
renal transplantation
annual report, 217
bone disease, 278
drainage of thoracic duct, 254
effect of parathormone infusion, 282
observations on function, 240, 246
psychosocial evaluation and management, 140
rejection
early diagnosis, 228
functional changes, 249
renal artery stenosis, 235
renin
levels following dialysis, 137
levels after nephrectomy, 137
plasma estimation, 137

S
selenium in uraemic peripheral nerves
198

shunts
angiography, 73
arterio-veno-arterial by-pass, 348
comparison with fistulae, 65
declotting with urokinase, 88
sodium
changes in peritoneal dialysis, 289
excretion in renal transplants, 252
plasma concentration and blood pressure, 132

T

thirst
effect of nephrectomy, 136

thoracic duct drainage before transplant
254

transplantation
see renal transplantation

U

ultrafiltration
comparison
Ultra flo 143, 112

Ultra flo 100, 112
ULX 299, 112
EX-01, 112
in children on R.D.T., 153
Kiil and Ab Gambro, 7
problems with Kiil dialyzer, 345
Rhône-Poulenc kidney, 15

urea estimation from dialysate concentration
19

uric acid estimation from dialysate concentration
19

V

viral hepatitis in Europe
101

vitamin D in patients on R.D.T.
272
