# Table of Contents

*Foreword*  

**PART 1**  
Combined report on regular dialysis and transplantation in Europe, II, 1971  
*F P Brunner, H J Gurland, H Härlen, K Schärer, F M Parsons*  
Blind spots in home dialysis  
*P M Gordon, W R Cattell*  
Daily-dialysis programme: indications and results  
*V Bonomini, V Mioli, A Albertazzi, P. Scolari*  

**PART 2**  
Une nouvelle méthode d’hémodialyse associant une membrane à haute perméabilité pour les moyennes molécules et un bain de dialyse en circuit fermé  
*J-L Funk-Brentano, A Sausse, N K Man, A Granger, M Rondon-Nucete, J Zingraff, P Jungers*  
Clinical assessment of haemodialysis patients with reduced small molecules removal  
*V Cambi, P Dall’aglio, G Savazzi, L Arisi, E Rossi, L Migone*  
Regulation of aldosterone in anephric man maintained with regular haemodialysis  
*P Weidmann, R Horton, S S Franklin, M Fichman, T Gral, M H Maxwell*  
Anti-HAA immunity in renal units with a high and low incidence of serum hepatitis  
*J Desmyter, R Fiasse, R Verberckmoes, J M Vandenbroucke, C van Ypsele de Strihou, C Dive, P Michielsen*  
Red cell metabolism and haemolysis in patients on dialysis  
*A Blumberg, H R Marti*  
Influence du passage du sang par le dialyseur sur le taux plasmatique de l’hormone de croissance et de l’insuline  
*S Czekalski, K Bęczyk*
PART 3

Benefits obtained by the use of high sodium dialysate during maintenance haemodialysis
*W K Stewart, Laura W Fleming, M A Manuel*

Insulin catabolism in chronic uraemia and in anephric man before and after dialysis treatment
*R Navalesi, A Pilo, Q Maggiore, S Lenzi, P Cecchetti, L Donato*

Effect of phosphate binding agents on bone remodelling in patients on regular haemodialysis
*A Fournier, S Tunchot, J Bedrossian, J G Sionest, J M Ilatte, P Bordier*

The ineffectiveness of haemodialysis in removing peptides inhibiting glucose utilisation
*R Dzurik, J Adam, J Reznicek*

Plasma aldosterone in patients with end-stage kidney disease
*P Weidmann, A N Lupu, P Schroth, M H Maxwell*

Plasma renin activity (PRA) in 89 patients on regular haemodialysis
*P W Craswell, V M Hird, R A Baillod, G Ku, J S Robertson, Z Varghese, J F Moorhead*

PART 4

Selection of patients for regular haemodialysis
*J W Czaczkes, A Kaplan de-Nour*

Problems of vascular access for haemodialysis—experience with 214 patients
*M Haimov, L Burrows, J D Casey, E Schupak*

PART 5 ROUND TABLE DISCUSSIONS

Dialysis and transplantation in children

Access to bloodstream for dialysis

Hepatitis

PART 6

Factors influencing rehabilitation in regular haemodialysis—a standardised questionnaire in 222 patients
*W Huber, G Strauch-Rahäuser, J Werner, H Häfner, M Strauch*

“Adequacy” of haemodialysis
*John R De Palma, Abdul Abukurah, Milton E Rubini*
Sexual problems of patients on RDT and after renal transplantation

Niels A Larsen

Effect of blood factor deposits in re-used dialysers on the dialysance of middle-weight molecules

P Kramer, D Matthaei, J G Go, K Winckler, F Scheler

Activated carbon and blood perfusion: a critical review

J D Andrade, K Kopp, R Van Wagener, C Chen, W J Kolff

The effects of erythrocyte mass transfer rates on solute clearance measurements during haemodialysis

A L Babb, R P Popovich, P C Farrell, C R Blagg

PART 7

Experiences in paediatric haemodialysis

H W Schüller, L Rohl, H W Asbach, K Möhring, C Maurer, M Stöhrer, M Ziegler, O Mehls, K Schärer, H Steffen

Home dialysis in children and adolescents

R A Baillod, G Ku, J F Moorhead

PART 8

Mortality and morbidity in diabetic patients accepted for renal transplantation

C M Kjellstrand, R L Simmons, F C Goetz, M B Klein, T J Buselmeier, J S Najarian

Long-term follow-up on kidney transplant patients and their families

B M Korsch, J E Gardner, R N Fine, V F Negrete

The production of immunosuppressive antisera

A D Barnes, R J Hawker, E I Cowdall, C Dickerson, H Dukes, J Griffin, B Crozier, J Feijfar, B H B Robinson, J D Blainey

Rehabilitation in 150 consecutive recipients of renal grafts

Jarl Ahlmén, Rolf Olander

Epiphyseal osteonecrosis in transplanted patients. Effect of surgical treatment

R Troch, J J Rombouts, C van Ypersele de Strihou, A Vincent, G P J Alexandre

La courbe de disparition des globulines antilymphocytaires de cheval marquées à 131I et 125I chez des malades traitées à long terme après transplantation

F Berthoux, J Traeger, J P Revillard

PART 9

The effect of peritoneal dialysis on intracellular free amino acids in muscle from uraemic patients

Jonas Bergström, Peter Fürst, Lars-Olof Norèe, Eric Vinnars
The permeation of essential amino acids through different dialysis membranes
H Klinkmann, M Holtz

La rétention de moyennes molecules dans le sérum urémique
P Dall'aglio, C Buzio, V Cambi, L Arisi, L Migone

PART 10 INVITED LECTURE

Diets and aminoacids in uraemia
C Giordano

EDITORIAL 1972

Dialysers and blood loss in regular dialysis therapy
R M Lindsay, A C Kennedy

PART 11

Influence of presensitisation on the fate of cadaveric renal allografts
N W Levin, P Ivanovich, R Suarez-Chacon, A Quintanilla, F del Greco,
O Jonasson, F K Merkel, J J Bergan

The influence of histocompatibility on graft and patient survival in
primary cadaver kidney transplantation
Bengt Storm, Annika Lindholm

Production of HL-A antisera by planned immunisations. Three new
HL-A factors
M Savi, G Garini, E S Curtoni

Experimental and clinical results of continuous hypothermic albumin
perfusion
G Claes, M Aurell, I Blohmé, S Pettersson

Kidney preservation in a hypothermic "cytoplasmic" solution before
transplantation
E Păuşescu, S Câlnaru, V Beroniade, V Păunescu, R Chirvasie

Effect of viscosity of cooled blood-free solutions on perfusion dynamics and
function of kidney transplants
H H Schuldt, I Hagemann, Th Erdmann, J Zinsmeyer, M Berger, U Solga,
R Pietsch, J Kruse

PART 12

Rosette-inhibiting activity of uraemic sera and the influence of dialysis
W Rowniński, H Łukastiewicz, T Orkowska, W Służeńska

Uraemic waste recovery II: In vitro studies
Kai Setälä, Helvi Heinonen, Ilona Schreck-Purola
Inhibition of transport-ATPase by uraemic toxins
H J Kramer, D Gospodinov, F Krück

Radioisotope renography and dynamic function studies with the PHO/III gamma camera in renal transplants
H E Hansen, P E Skov, H Hvid-Hansen, A Sell, J Taagepæ-Jensen, N Ulsø

Extravascular lung water in resting and exercising uraemic patients on RDT
W A Crosbie, V Parsons, S Snowdon

Effects of zinc-containing dialysis membranes on zinc metabolism in patients on RTD
J Zazgornik, P Schmidt

PART 13 DEMONSTRATIONS

Etude de la sécrétion des gonadotrophines au cours de l’insuffisance rénale chez l’homme
J Cl Daubresse, M Palem-Vliers, A M Gyselinck-Mambourg, P Franchimont

Simple instantaneous determination of clearance efficiency of the Cordis Dow artificial kidney (Model 3)
A D Malcolm, F J Goodwin, F P Marsh, A J Mourant, J S Yudkin

A new automatic peritoneal dialyser
A S Parker, J W Witchen, R H Barrett, J C Mackenzie, R N Iles, A F Shaw

A combined bubble trap and arterial line monitor
R H Barrett, A J Street, L Lawrence, A S Parker, J C Mackenzie, I R Ferrier

Microcapsule artificial kidney and medium molecular weight clearance
T M S Chang

Antibody production in patients on regular haemodialysis to organisms present in dialysate
D M Jonas, B M Tobin, G R Harlow, A J Ralston

Study of the serum half-life of a new cephalosporin in uraemic patients
J P Fillastre, G Humbert, J Acar, H Malandain, M Robert, D Dubois, M F Daufresne

Adapting a parallel flow dialyser to the Travenol RSP machine
J A Chacon, A Yañez, I Lampreabe, M Sangrador, N Escubi, R G Damborenea

Treatment of uraemia by using an ultrafiltration-filtration system
E Quellhorst, E Fernandez, F Scheler

Complications of arteriovenous fistulae
R L Lawton, R M Freeman

The Dasco SP 400 disposable dialyser
N A Hoenich, B von Hartitzsch, P J Samson, J Erickson, B Reed, D N S Kerr
Comparative performance characteristics of different thickness cuprophane membranes
N A Hoenic, B von Hartitzsch, P J Samson, J Erickson, B Reed, D N S Kerr

New coils and cartridge dialysers
B von Hartitzsch, N A Hoenic, J Erickson, D Jolly, P Samson, B R Reed, D N S Kerr

The Gambro Lundia—a new disposable multilayer dialyser
B von Hartitzsch, N A Hoenic, J Erickson, D Jolly, P Samson, B R Reed, R Ashcroft, C B Clayton

The problem of de-aeration—cause, consequence, cure
B von Hartitzsch, N A Hoenic, J Johnson, R A L Brewis, D N S Kerr

Ultrasound scanning for renal biopsy in acute and chronic renal failure
J Bahlmann, P Otto

Heparin 35S removal in anephric patients undergoing regular dialysis
J S Cameron, D Fitzgerald, A K Youssef, C S Ogg, T Csorba, P Barkhan

Control of hepatitis in a renal unit
J Fereses, S Maqueda, A Touchard, M T D'Ocon

Simultaneous disequilibrium studies on urea and creatinine during haemodialysis
T H Frost, B von Hartitzsch, J Marshall, R Ashcroft

The Mini-D, a versatile dialyser for paediatric dialysis
J R Shideman, T J Buselmeier, M Mauer, C M Kjellstrand

Clinical evaluation of the capillary film artificial kidney
J Hoeltzenbein, K Elias, B Roesing

The accuracy of the bubble flow method for the determination of the blood flow rate during haemodialysis
P Kramer, B Eichelberg, F Scheler

End to side anastomosis between great saphenous vein and subcutaneously fixed femoral artery

Haemodynamic effects of A-V shunts and their clinical significance

Home dialysis with the single needle method
K F Kopp, C F Gutch, W J Kolff

Increased flow rates through use of perforated fistula needles
K F Kopp, C F Gutch, W J Kolff
PROCEEDINGS OF THE EUROPEAN
DIALYSIS AND TRANSPLANT ASSOCIATION

VOLUME IX
