CONTENTS

Foreword vii
Preface xi

Part I – STATISTICAL REPORTS
Combined report on regular dialysis and transplantation in Europe, XII, 1981 2
M Broyer, F P Brunner, H Brynger, R A Donckerwolcke, C Jacobs, P Kramer, N H Selwood, A J Wing

Combined report on regular dialysis and transplantation of children in Europe, XI, 1981 60
R A Donckerwolcke, M Broyer, F P Brunner, H Brynger, C Jacobs, P Kramer, N H Selwood, A J Wing

Part II – SYMPOSIUM
Circulatory access — still a major concern 95
B H Scribner

Secondary procedures for A-V fistula failure 99
G Kootstra

The subclavian catheter in haemodialysis 106
R Uldall

Percutaneous femoral vein catheterisation 115
S T Boen

Part III – GUEST LECTURE
Current problems in amino acid therapy for acute renal failure 129
J D Kopple, E I Feinstein

Part IV – DIALYSIS
Accumulation of silicone elastomer in regular dialysis 142
T Laohapand, E M Osman, A R Morley, M K Ward, D N S Kerr

Chronic liver disease in haemodialysis patients 153
P S Parfrey, F J Paradinas, J B O'Driscoll, J R Curtis, P E Gower

Leucopenia, hypoxia and complement activation in haemodialysis. Three unrelated phenomena 159
S G de Vinuesa, M Resano, J Luño, C Gonzalez, G Barril, E Junco, F Valderrabano

xiii
Does atherosclerosis caused by dialysis limit the treatment?  
J Kindler, H-G Sieberth, R Hahn, W M Glöckner, M Vlaho, R Pelzer

Ultrashort haemodialfiltration: long term efficiency and haemodynamic tolerance  
V Wizemann, P Rawer, G Schüttlerle

Discontinuation of chronic haemodialysis after control of arterial hypertension; long term follow-up  
J P Wauters, H R Brunner

Part V – BONE DISEASE AND DIABETES MELLITUS ON DIALYSIS

Osteomalacia in chronic renal failure before dialysis  
F J Mora Palma, V Lorenzo Sellares, H A Ellis, M K Ward, D N S Kerr

The efficacy of various treatment modalities on aluminium associated bone disease  
B U Ihle, M R C Buchanan, B Stevens, G J Becker, P Kincaid-Smith

Treatment of fracturing renal osteodystrophy by desferrioxamine  

Haemodialysis or renal transplantation in the treatment of end-stage diabetic nephropathy  
Y Pirson, B Polla-Inhoof, J M Vandenbroucke, J J Lafontaine, J P Squifflet, J P Cosyns, G P J Alexandre, C van Ypersele de Strihou

Is continuous ambulatory peritoneal dialysis the best dialysis choice for insulin dependent diabetics?  
J Rottembourg, F de Groc, J L Poignet, M Legrain

Parathyroid hormone in patients with diabetes mellitus and end-stage renal disease on chronic haemodialysis  
R C Pabico, A J Rivero, Barbara A McKenna, R B Freeman

Part VI – DIALYSIS POSTERS

Autogenous saphenous vein AV fistulae for haemodialysis: eight years experience with 30 patients  
W Lornoy, I Becaus, J P Gillardin, J Cuvelier, J Schelstraete, M Vermaut, P Van Malderen, G Souffriau

Non-thrombotic complications of PTFE grafts for haemodialysis  
M J H Slooff, P J H Smits, D H E Lichtendahl, G K Van Der Hem

Echotomography in arteriovenous fistulae  
P M Ghezzi, A Dutto, F Lupo, P Novara, A Rovere, G Valle, G Cento, V Grivet

The influence of aluminium on parathyroid hormone levels in haemodialysis patients  
J B Cannata, J D Briggs, B J R Junior, G Beastall, G S Fell
Idiopathic hypercalcaemia of chronic dialysis

T G Feest, P Newrick, D J Read

248

Vibration sensory threshold: a guide to adequacy of dialysis?

D J Read, T G Feest, R H Holman

253

Ultrastructural findings of uraemic muscular damage:
functional implications

G M Savazzi, E Govoni, M M Bragaglia, V Cambi, L Migone

258

Clinical implications of the presence of refractile particles in
the liver of haemodialysis patients

J M Morales, F Colina, J Arteaga, A Barrientos, V G Millet,
L M Ruilope, J M Alcazar, J L Rodicio

265

Part VII – DIALYSIS POSTERS

Decreased number of alpha-adrenergic receptors in platelets of
patients on maintenance haemodialysis

O E Brodde, A Daul, N Graben

270

The effects of diffusion and ultrafiltration on cardiac output
and organ blood flows

T Kishimoto, K Sugimura, T Nakatani, S Yamagami, K Ezaki,
S Okazaki, M Maekawa

275

Left ventricular function during haemofiltration and
haemodialysis: a comparative study

P Aljama, A Martin-Malo, R Sanz, J Pasalodos, M Sancho,
E Moreno, J Gómez, R Pérez, L G Burdiel, E Andrés

281

Controlled trial of calcitriol in the prevention of bone disease
in haemodialysed patients

V L Sharman, S M L Abrams, S Adami, W R Cattell,
D M Chaput de Saintonge, R N Greenwood, F J Goodwin, W Hately,
L A Hattersley, F P Marsh, A G Morgan, J W Muir, J L H O’Riordan,
S E Papapoulotis, P Revell, A K Tucker, L R I Baker

287

Parathyroid ultrasonography and fine-needle aspiration biopsy
in the diagnosis of secondary hyperparathyroidism

L Solbiati, A Giangrande, G Montali, C Ravetto, C Bazzi,
G Sorgato, T Ierace

293

Quantitative assessment of carnitine loss during haemodialysis and
haemofiltration

K W Rumpf, M Leschke, Th Eisenhauer, K Becker, U Köthe, F Scheler

298

Endocrine-metabolic effects of L-carnitine in patients on regular
dialysis treatment

A Albertazzi, P Capelli, B Di Paolo, P Pola, P Tondi, O Vaccario

302

Reduction of elevated plasma oxalic acid by pyridoxine therapy
in patients on RDT

P Balcke, P Schmidt, J Zazgornik, H Kopsa

308
Association between rising haemoglobin concentration and renal cyst forma-
tion in patients on long term regular haemodialysis treatment
H J Goldsmith, R Ahmad, N Raichura, S M Lal, C A McConnell,
D A Gould, O H B Gyde, J Green

Part VIII – DIALYSIS POSTERS

Dopamine-frusemide therapy in acute renal failure
G Graziani, S Casati, A Cantaluppi, A Citterio, A Aroldi,
A Scalamogna, D Brancaccio, C Ponticelli

Factor VIII related antigen, coagulation tests and acute renal failure
J Sampol, A Robert, F Jahjah, A Giller, M Olmer

Continuous haemofiltration maintains fluid balance and reduces
haemodialysis requirement in acute renal failure
N J Dodd, J H Turney, V Parsons, M J Weston

Respiratory response of acetate dialysis and bicarbonate dialysis
A Salvadeo, G Pezzagno, S Segagni, F Galli, G Villa, F Poggio,
V Piazza, G Bovio, L Picardi, E Petrella, L Bigi

No relationship between acetate and hypotension in a standard
dialysis schedule
A Castellani, F Lonati, L Bigi, S Bassi, F Brandi, M Minari, P Poiatti,
C Doregatti

Side effects in bicarbonate dialysis due to low dialysate pH
L Wagner, B Schindler, W Marhoeffer, O van Eyl, M Strauch

Electroencephalogram investigations of the disequilibrium syndrome
during bicarbonate and acetate dialysis
H Hampel, H W Klopp, N Michelis, A Mahiou, H Schilling, M Wolfrugruber,
R Schiller, F Hanefeld, M Kessel

Computer modelling of haemodialysis/ultrafiltration explaining
the pathogenesis of the disequilibrium syndrome
S G Dawids, A H Caspersen

Potassium removal as a factor limiting the correction of acidosis
during dialysis
B Redaelli, S Sforzini, L Bonoldi, D Limido, G Pinella, M R Viganò,
C Dadone, P Beretta, F Mascia

Part IX – CONTINUOUS AMBULATORY PERITONEAL DIALYSIS

Continuous ambulatory peritoneal dialysis and cellular immunity
A Giangrande, P Cantù, A Limido, D de Francesco, V Malacrida

An integrated programme of haemodialysis and peritoneal dialysis:
a single two-litre exchange per night plus haemodialysis every four to
six days
V Cambi, G Garini, L Occhialini, D Tagliavini, L Arisi, S David
Peritonitis prevention in continuous ambulatory peritoneal dialysis: long term efficacy of a bacteriological filter
A Stingeneyer, C Mion

Evolution of residual renal function in patients undergoing maintenance haemodialysis or continuous ambulatory peritoneal dialysis
J Rottembourg, B Issad, J L Gallego, P Degoulet, F Aime, B Gueffaf, M Legrain

Part X – GUEST LECTURE

The role of immunological parameters in kidney transplantation
J Miguel Kreisler

Part XI – TRANSPLANTATION IMMUNOLOGY

Renal transplantation across a blood group barrier – 'A₂' kidneys to 'O' recipients
H Brynger, L Rydberg, B Samuelsson, Ingemar Blohmé, Annika Lindholm, Lena Sandberg

Influence of Lewis and other blood group systems in kidney transplantation

Non-HLA immunological factors in eighteen HLA-identical renal allotransplants
J B Dossetor, T Kovithavongs

Transplant survival and clinical course after pretransplant HLA-A and B matched blood transfusions: a single centre study
M J Nubé, G G Persijn, M W Kalff, A v Es, J de Graeff, J J v Rood

The influence of blood transfusions on lymphocyte reactivity in man
D Klatzmann, J C Gluckman, C Foucault, J Bedrossian, U Assogba, E Brisson, M Haguaet, M Legrain

B lymphocyte antibodies associated with successful renal transplantation and successful pregnancy
A M MacLeod, D A Power, R J Mason, K N Stewart, G Shewan, N Edward, G R D Catto

Part XII – TRANSPLANTATION POSTERS

Improved kidney graft survival through HLA-DR-MT matching
G A Müller, Claudia Müller, P Wernet

Acute renal allograft rupture – a good prognostic start
J A C Buckels, M Y Ezzibdeh, A D Barnes
Suppressor factor in plasma of aminophylline treated renal transplanted patients
Z Shapira, B Shohat, A Yusim, C Servadio

Outcome of renal grafts with multiple or damaged vessels
A Vegeto, L Berardinelli, C Beretta, L L Militano

Intravenous methylprednisolone at the time of renal transplantation

Improvement of cadaveric renal allograft survival by thoracic duct drainage: relation with T-lymphocyte subset modifications assessed by flow-cytometry
M Laville, Geneviève Cordier, J Brochier, R Lefebvre, J-P Revillard, J Traeger

Comparison of urine cytology versus fine needle aspiration cytology in monitoring renal allograft dysfunction
B Spohn, H Bauer, E Gmühlle, R Guth, H E Franz

Renal changes in cytomegalovirus infection
L A Castro, J M Gökel, G Thoenes, G Frösner, W Land, G Hillebrand, H J Gurland

De novo development of hypercholesterolaemia and increased HDL-cholesterol: apoprotein A-I ratio in patients with chronic renal failure following kidney transplantation
N Kobayashi, M Okubo, F Marumo

Part XII – GUEST LECTURE

Viral infection in the renal transplant patient
R H Rubin, Nina E Tolkoff-Rubin

Part XIV – TRANSPLANTATION COMPLICATIONS

Radiolabelled platelets and prostacyclin in diagnosis and treatment of transplant rejection
C Leithner, H Sinzinger, M Schwarz, E Pohanka

Acute vascular rejection treated by plasma exchange
W Fassbinder, W Ernst, H J Stutte, E Scheuermann, U Frei, W Schoeppe

Plasma prednisolone concentrations and kinetics in renal transplant patients
W E Nelson, Ciaran C Doherty, J F Douglas, Mary G McGeown, H Delargy, D J Temple

Changes in prednisolone pharmacokinetics and protein binding during treatment with rifampicin
H Bergrem, O K Refvem
Cytomegalovirus infection in renal allograft recipients. A prospective study
G Mourad, M Poulquier, G Levy, C Legendre, C Marcelli, G Chong, G Ruiz, J Mandin, C Mion

Prevalence and causes of hypertension late after renal transplantation
M Wauthier, P Vereerstraeten, Y Pirson, Ch Toussaint, G PJ Alexandre, P Kinnaird, H Van Geertruyden, C van Ypersele de Strihou

Part XV – PAEDIATRIC NEPHROLOGY

Hereditary glomerulonephritis of non-Alport type
C C Doherty, D T Middleton, Claire M Hill

Survival time in cystinosis. A collaborative study

Fe-receptor function in Henoch-Schönlein disease of childhood
J C Davin, J B Foidart, P R Mahieu

Thromboembolic complications and haemostasis in the nephrotic syndrome – is there a difference between children and adults?
K Andrassy, P J Oertel, O Mehts, W Kreusser, J Koderisch, E Ritz

HLA phenotypes and idiopathic nephrotic syndrome in children
H Ruder, K Schärer, V Lenhard, A M Wingen, G Opelz

Continuous ambulatory peritoneal dialysis in small children with acute renal failure
F C B Abbad, S L B Ploos van Amstel

Part XVI – GUEST LECTURE

Mechanisms of progression in glomerulonephritis
J Stewart Cameron

Part XVII – GLOMERULONEPHRITIS

Immunogenetics and immunopathology of human membranous glomerulonephritis
Blandine Laurent, F C Berthoux, J C Le Petit, G Genin, P Laurent, Françoise Broutin, Françoise Touraine, J L Touraine

T-lymphocyte subsets in primary and secondary glomerulonephritis
A Fornasieri, R Sinico, G Fiorini, D Goldaniga, G Colasanti, F Vendemia, A Gibelli, G D’Amico
Abnormalities of immune regulation in patients with IgA mesangial glomerulonephritis (Berger’s disease)

J Egido, R Blasco, J Sancho, M Illescas, L Hernando

IgA1 and IgA2 in circulating immune complexes and in renal deposits of Berger’s and Schönlein-Henoch glomerulonephritis

R Coppo, B Basolo, G Mazzucco, M R Bulzoni, D Roccagello, M Messina, G Barbiano, G Martina, C Rollino, G Piccoli

The presence of J chain in mesangial immune deposits of IgA nephropathy

U Donini, S Casanova, N Zini, P Zucchelli

Clinical and serological features of mesangial IgA glomerulonephritis

M Rambausek, H P Seelig, K Andrassy, R Waldherr, V Lenhard, E Ritz

Part XVIII – GLOMERULONEPHRITIS POSTERS

T-suppressor cell abnormalities in Type I membranoproliferative glomerulonephritis

B Brando, G Busnach, S Bertoli, M L Nova, L Minetti

Minimal change glomerulonephritis and focal glomerulosclerosis markers and ‘in vitro’ activity of peripheral blood mononuclear cell

P Dall’Aglio, C Chizzolini, C Brigati

Morphologic and functional tubular changes in chronic glomerulonephritis

H Klinkmann, M Ratner, V V Serov, H Nizze, B I Rosenfeld, W Sinn, R Schmitteker

Glomerular deposits of rheumatoid factor in glomerulonephritis

F Bartolomeo, A L’Abbate, C Martorano, V Misefari, A Caccamo, Q Maggiore

The isolated C3 in the ‘vascular pole’ in patients with primary haematuria

P Barcelò, A Covarsi, J A Ballarin, J L Rodríguez, C Gelpi, G Del Rio

Berger’s nephropathy: relationship between histological pattern, blood pressure and renin

F Degli Esposti, P Zucchelli, C Chiarini, A Santoro, A Sturani, A Zuccalà, L Cagnoli, U Donini, M Mandreoli, S Pasquali

Part XIX – GUEST LECTURE

Coagulation and renal diseases

A Kanfer

Part XX – GENERAL NEPHROLOGY

Controlled trial of monthly alternated courses of steroid and chlorambucil for idiopathic membranous nephropathy

C Ponticelli, P Zucchelli, E Imbasciati, L Cagnoli, C Pozzi, C Grassi, D Limido, S Pasquali, P Passerini, T Colpini, F Locatelli

xx
Aggressive treatment with pulse methylprednisolone or plasma exchange is justified in rapidly progressive glomerulonephritis

*M E Stevens, M McConnell, J M Bone*

Plasma exchange in severe glomerulonephritis — who benefits?

*C P Swainson, R J Winney, S J Urbaniak, J S Robson*

Participation of renal prostaglandins in the nephrotic syndrome

*L Ruilope, V G Millet, J M Alcazar, C Prieto, J A F Tresguerres, R Garcia-Robles, J Sancho, J L Rodicio*

Why diuretic treatment increases azotaemia in patients with chronic glomerulonephritis

*A Dal Canton, G Guiano, G Conte, M Terribile, M Sabbatini, B Ciancianuso, V E Andreucci*

Renovascular hypertension: easier diagnosis and treatment with intravenous renal arteriography and percutaneous transluminal dilatation

*J P Cecile, A Fournier, J P Sorez, D Delambre, C B Galy, P Fievet, A Remond*

Beta adrenergic modulation of extrarenal potassium disposal in terminal uraemia

*A Martinez Vea, J Montoliu, L Andreu, A Torras, J Gaya, J López-Pedret, L Revert*

**Part XXI — NEPHROLOGY POSTERS**

Improvement of insulin binding to erythrocyte insulin receptors in uraemia by haemodialysis

*S Milutinović, D Breyer, M Janković, A Stefović, V Molnar, V Mrzljak, R Rocić*

Effect of haemodialysis on insulin requirements in uraemic diabetic patients. Studies with the artificial beta-cell

*O Schmitz*

Three years experience with a very low nitrogen diet supplemented with essential amino acids and keto-analogues in the treatment of chronic uraemia

*G Barsotti, E Morelli, A Guiducci, A Giannoni, F Ciardella, F Niosi, S Lupetti, S Giovannetti*

pH — dependence of phosphate absorption in rat renal proximal tubule

*I Samarzića, V Molnar, E Frömter*

Substitution of aluminium hydroxide by high doses of calcium carbonate in patients on chronic haemodialysis: disappearance of hyperaluminaemia and equal control of hyperparathyroidism

*Ph Moriniere, A Roussel, Y Tahir, J F de Fremont, G Maurel, M C Jaudon, J Gueris, A Fournier*
Altered beta-receptor responsiveness in uraemic rats
J F E Mann, M Hausen, A Kutter, R Sudhoff, E Ritz

Prednisone-induced increase of proteinuria in patients with a nephrotic syndrome
P G G Gerlag, F J H M van Lie Bergen, R A P Koene

Plasmapheresis induced recovery from renal failure in mesangiocapillary glomerulonephritis of acute onset
J Montoliu, E Bergadà, A Botev, A Torras, A Darnell, P Arrizabalaga, J López-Pedret, I Revert

Effect of thymus factor and levamisole treatment in patients with persistent nephrotic syndrome
S Czekalski, D Sulima, G Strzelecka

Membership of the European Dialysis and Transplant Association

Index
